

## Invites You to Attend a Special Event Commemorating Our 20<sup>th</sup> Anniversary

# REFLECT • RENEW • RECHARGE

The Educational Technology Training Centers (ETTC) of New Jersey have reached a significant milestone this year - commemorating 20 years of service to the PK-12 community of educators. It's often hard to remember a time when technology was not a part of our lives but in 1997-1998 many teachers had never touched a computer or experienced the excitement of the information that could be found on the World Wide Web. The NJ Department of Education funded the establishment of 21 ETTCs across the state. The mission was straight-forward - provide technology training for classroom teachers. The impact on schools, students, families, and classroom instruction was immediate.

It is hard to imagine what the technological advances will be during the next 20 years. The only certainty is that the future will look very different from today. What are the skills and resources that teachers will need in order to prepare our students for that future?

As an innovative and creative educator, we want to hear from you. Please join us at this special event at the Southern Regional Institute and ETTC (SRI&ETTC) at Stockton University. The day will include keynote remarks, workshops and panel discussions. We want to hear what you think about the past, present, and future of technology in the classroom!

We hope to REFLECT on 20 years of technology integration in our schools, RENEW our mission to provide programming and training to support the professional development needs of educators, and RECHARGE teachers' interest and excitement about the possibilities that lie ahead of us.

**Wednesday, May 23, 2018 - 8:30 am-2:30 pm**  
**10 W. Jimmie Leeds Road, Galloway, NJ**

**Keynote Remarks by Kathi Kersznowski,**  
***"Reflecting on the Past, Preparing for the Future"***

Tech Integration Specialist! EdTech Blogger, Presenter, Leader! TOY, Admin2B, MIEExpert,
